SMART LINEAR LIGHTING SYSTEM 2.0

Smart linear lighting system, A linear lighting system based on Intelligent control scheme.

SLLS 2.0 The system not only covers the design of freedom, simplicity, fashionable, Also contains the intelligent control for building lighting environment and the lighting environment design of art.

At the same time, the system is divided into two series which is Linear lighting system and Arc lighting system.

Free Line series : Can creating a sense of time, sense of space. Free Arc series: Can creating a sense of soft feeling, a sense of freedom. They can strengthening the interior light environment atmosphere .

The Birth of SLLS 2.0, designed to bring comfortable, bright and artistic charm to the world .
